**Welcome to Divine Mercy Parish** ~ We are pleased to have you present today and extend to you the warmest of welcomes. It is fitting that we should celebrate the Holy Mass together at our Parish, the center of our spiritual life. We ask everyone gathered here to remember this is a holy place. It is a place where the Blessed Sacrament, Our Lord present among us, is kept in the tabernacle. It is also a sacred place for prayer. Therefore, please maintain a respectful silence in the Church out of consideration for the presence of Our Lord in the Blessed Sacrament, and those who are praying. Thank you for your understanding.

Items for the bulletin should be submitted no later than Wednesday morning at 10:00 a.m. Editorial discretion on all items. Email: [stspeterpaulanne@gmail.com](mailto:stspeterpaulanne@gmail.com).

*Well everybody, this is my last bulletin that I will be doing here at Divine Mercy. I am going to be walking down a new path in my life. My sister has opened a Quilt Shop here in town and I am going to be helping her and I will also have the joy of being with my great-niece, Gabriella every day and watch her grow up. So it is with bittersweet feelings that I say so long, but just to the bulletin because I will still be a proud member of Divine Mercy Parish. And with that said...here's one last funny!*

*God Bless All..."Sister" Debbie*

Relatives gathered in the waiting room of a hospital, where their family member lay gravely ill. Finally, the doctor came in looking tired and somber. "I'm afraid I'm the bearer of bad news," he said as he surveyed the worried faces. "The only hope left for your loved one at this time is a brain transplant. It's an experimental procedure, very risky but it is the only hope. Insurance will cover the procedure, but you will have to pay for the brain yourselves."

The family members sat silent as they absorbed the news. After a great length of time, someone asked, "Well, how much does a brain cost?" The doctor quietly responded, "\$5,000 for a male brain and \$200 for a female brain." The moment turned awkward. Men in the room tried not to smile, avoiding eye contact with the women, but some actually smirked. A man unable to control his curiosity, blurted out the question everyone wanted to ask, "Why is the male brain so much more?" The doctor smiled at the childish innocence and explained to the entire group, "It's just standard pricing procedure. We have to mark down the price of the female brains because they've actually been used."
